

AmnioWorks®

Revolutionizing Ocular Surface Tissue Reconstruction

Innovative Human Amniotic
Membranes by Tissue Regenix

AmnioWorks®

Derived from human amniotic membrane recovered following live birth, AmnioWorks® by Tissue Regenix represents a pinnacle in regenerative ocular care. Each donation is from volunteer donors, ensuring ethical and high-quality sourcing.

Key Features and Benefits

AmnioWorks® offers an immune-privileged tissue rich in growth factors and cytokines, essential for effective tissue repair and regeneration, especially for the ocular surface.

Key features include:

-  Five-year shelf life
-  Ambient temperature storage (2-30°C)
-  Sterilization via low-temperature irradiation
-  High sterility assurance level (SAL) of 10⁻⁶

Product Options

| Product Code | Description |
|--------------|--------------------------------|
| 471011-TL | AmnioWorks® Amnion Patch 1x1cm |
| 471012-TL | AmnioWorks® Amnion Patch 1x2cm |
| 471022-TL | AmnioWorks® Amnion Patch 2x2cm |
| 471023-TL | AmnioWorks® Amnion Patch 2x3cm |
| 471044-TL | AmnioWorks® Amnion Patch 4x4cm |
| 471046-TL | AmnioWorks® Amnion Patch 4x6cm |
| 471048-TL | AmnioWorks® Amnion Patch 4x8cm |
| 472010-TL | AmnioWorks® Amnion Disc 10mm |
| 472012-TL | AmnioWorks® Amnion Disc 12mm |
| 472014-TL | AmnioWorks® Amnion Disc 14mm |
| 472016-TL | AmnioWorks® Amnion Disc 16mm |
