

**ConCelltrate® 100**

# **Advanced Healing for Skeletal Defects**

The Osteoinductive Revolution  
by Tissue Regenix

## ConCelltrate® 100

ConCelltrate® 100 is meticulously crafted for the repair of surgically created or traumatic skeletal defects. Comprising entirely of human bone and utilizing proprietary rice-shape fibre technology, it stands at the forefront of enhancing osteoinductive and osteoconductive properties to expedite cellular ingrowth.

## Key Features and Benefits

Exceptional handling characteristics ensures safety and reliability. Designed to be osteoinductive and osteoconductive, it is the scaffold of choice for accelerated healing.

### Key features include:

Five-year shelf life

Ambient temperature storage (2-30°C)

High sterility assurance level (SAL) of  $10^{-6}$

## Product Options

Product Code	Description
453010-TL	Concelltrate® 100, 1.0cc
453025-TL	Concelltrate® 100, 2.5cc
453050-TL	Concelltrate® 100, 5.0cc
453100-TL	Concelltrate® 100, 1.0cc
