

MatrixCollect® 100 DBM

Restoring Strength to Skeletal Structures

Pioneering Bone Regeneration

MatrixCollect® 100 DBM

MatrixCollect® 100 DBM is a premium, 100% bone allograft used for the treatment of skeletal defects. Free of extrinsic carriers, it's processed with CellRight Technologies® advanced demineralisation to ensure all five elements of bone formation are present post-sterilisation.

Key Features and Benefits

Verified osteoinductive properties, providing reliability in every application.

Key features include:

Two-year shelf life

Ambient temperature storage (2-30°C)

High sterility assurance level (SAL) of 10⁻⁶

Product Options

Product Code	Description
452010-TL	Matrixcollect® 100 DBM Putty, 1.0cc
452025-TL	Matrixcollect® 100 DBM Putty, 2.5cc
452050-TL	Matrixcollect® 100 DBM Putty, 5.0cc
452100-TL	Matrixcollect® 100 DBM Putty, 10.0cc
455010-TL	Matrixcollect® 100 DBM Crunch, 1.0cc
455025-TL	Matrixcollect® 100 DBM Crunch, 2.5cc
455050-TL	Matrixcollect® 100 DBM Crunch, 5.0cc
455100-TL	Matrixcollect® 100 DBM Crunch, 10.0cc
