

Matrix OI® Fillers

Redefining Bone Regeneration

Osteoinductive Excellence
in Bone Repair

Matrix OI® Fillers

Matrix OI® Fillers represent the latest in bone repair technology, with 100% demineralised bone matrix enriched with mineralised cancellous fibres. Rigorously tested for osteoinductivity, each lot demonstrates the presence of all five essential bone-forming elements.

Key Features and Benefits

A verified osteoinductive profile, the fillers resist migration and hydrate rapidly, making them an optimal choice for clinicians.

Key features include:

Five-year shelf life

Ambient temperature storage (2-30°C)

High sterility assurance level (SAL) of 10^{-6}

Product Options

Product Code	Description
444225-TL	Matrix OI® Filler, 1-4mm, 2.5cc
444250-TL	Matrix OI® Filler, 1-4mm, 5.0cc
444300-TL	Matrix OI® Filler, 1-4mm, 10.0cc
