Engineering Cellular Growth

Scaffold Innovation
by Tissue Regenix

Matrix OI® Strips and Blocks

Matrix OI® provides a groundbreaking Stem Cell Containment™ human scaffold, employing CellRight's BioRinse™ technology and Geometric Compression™ to enhance graft placement and support through minimally invasive procedures.

Key Features and Benefits

Matrix OI® guarantees osteoinductivity in each lot post-sterilisation, supporting bone morphogenetic proteins.

Key features include:

Five-year shelf life

Ambient temperature storage (2-30°C)

High sterility assurance level (SAL) of 10⁻⁶

Product Options

Product Code	Description
441010-TL	Matrix OI® Block 10x10x10mm
441012-TL	Matrix OI® Block 12x12x12mm
441014-TL	Matrix OI® Block 14x14x14mm
442006-TL	Matrix OI® Strip 50x10x7mm
442007-TL	Matrix OI® Strip 50x20x7mm
442008-TL	Matrix OI® Strip 26x19x7mm
